An unprecedented and timely collection of Dr. King's speeches on labor rights and economic justice. People forget that Dr. King was every bit as committed to economic justice as he was to ending racial segregation. He fought throughout his life to connect the labor and civil rights movements, envisioning them as twin pillars for social reform. As we struggle with massive unemployment, a staggering racial wealth gap, and the near collapse of a financial system that puts profits before people, King's prophetic writings and speeches underscore his relevance for today. They help us imagine King anew: as a human rights leader whose commitment to unions and an end to poverty was a crucial part of his civil rights agenda. Covering all the civil rights movement highlights—Montgomery, Albany, Birmingham, Selma, Chicago, and Memphis—award-winning historian Michael K. Honey introduces and traces King's dream of economic equality. Gathered in one volume for the first time, the majority of these speeches will be new to most readers. The collection begins with King's lectures to unions in the 1960s and includes his addresses during his Poor People's Campaign, culminating with his momentous "Mountaintop" speech, delivered in support of striking black sanitation workers in Memphis. Unprecedented and timely, "All Labor Has Dignity" will more fully restore our understanding of King's lasting vision of economic justice, bringing his demand for equality right into the present.

The International Society for Justice Research (ISJR) aims to provide a platform for interdisciplinary justice scholars who are encouraged to present and exchange their ideas. This exchange has yielded a fruitful advance of theoretical and empirically-oriented justice research. This volume substantiates this academic legacy and the research prospects of the ISJR in the field of justice theory and research. Included are themes and topics such as the theory of the justice motive, the mapping of the multifaceted forms of justice (distributive, procedural) and justice in context-bound spheres (e.g. non-humans). It presents a comprehensive "state of the art" overview in the field of justice research theory and it puts forth an agenda for future interdisciplinary and international justice research. It is worth noting that authors in this proposed volume represent ISJR's leading scholarship. Thus, the compilation of their research within a single framework exposes potential readers to high quality academic work that embodies the past, current and future trends of justice research.

From the March on Washington to March for Our Lives to Black Lives Matter, the powerful stories of kid-led protest in America. Kids have always been activists. They have even launched movements. Long before they could vote, kids have spoken up, walked out, gone on strike, and marched for racial justice, climate protection, gun control, world peace, and more. Kids on the March tells the stories of these protests, from the March of the Mill Children, who walked out of factories in 1903 for a shorter work week, to 1951's Strike for a Better School, which helped build the case for Brown v. Board of Education, to the twenty-first century's most iconic movements, including March for Our Lives, the Climate Strike, and the recent Black Lives Matter protests reshaping our nation. Powerfully told and inspiring, Kids on the March shows how standing up, speaking out, and marching for what you believe in can advance the causes of justice, and that no one is too small or too young to make a difference.

"From one of the most brilliant and influential lawyers of our time comes an unforgettable true story about the redeeming potential of mercy. Bryan Stevenson was a gifted young attorney when he founded the Equal Justice Initiative, a legal practice dedicated to defending the poor, the wrongly condemned, and those trapped in the furthest reaches of our criminal justice system. One of his first cases was that of Walter McMillian, a young man sentenced to die for a notorious murder he didn't commit. The case drew Stevenson into a tangle of conspiracy, political machination, and legal brinkmanship - and transformed his understanding of mercy and justice forever."--Back cover.

In 1976, the US Supreme Court ruled in *Gregg v. Georgia* that the death penalty was constitutional if it complied with certain specific provisions designed to ensure that it was reserved for the 'worst of the worst.' The same court had rejected the death penalty just four years before in the *Furman* decision because it found that the penalty had been applied in a capricious and arbitrary manner. The 1976 decision ushered in the 'modern' period of the US death penalty, setting the country on a course to execute over 1,400 inmates in the ensuing years, with over 8,000 individuals currently sentenced to die. Now, forty years after the decision, the eminent political scientist Frank Baumgartner along with a team of younger scholars (Marty Davidson, Kaneesha Johnson, Arvind Krishnamurthy, and Colin Wilson) have collaborated to assess the empirical record and provide a definitive account of how the death penalty has been implemented. Each chapter addresses a precise empirical question and provides evidence, not opinion, about whether how the modern death penalty has functioned. They decided to write the book after Justice Breyer issued a dissent in a 2015 death penalty case in which he asked for a full briefing on the constitutionality of the death penalty. In particular, they assess the extent to which the modern death penalty has met the aspirations of *Gregg* or continues to suffer from the flaws that caused its rejection in *Furman*. To answer this question, they provide the most comprehensive statistical account yet of the workings of the capital punishment system. Authoritative and pithy, the book is intended for both students in a wide variety of fields, researchers studying the topic, and--not least--the Supreme Court itself.

"This is a dangerous book."—Robin D. G. Kelley, author of *Freedom Dreams* Fifty years ago, a single bullet robbed us of one of the world's most eloquent voices for human rights and justice. To the Promised Land goes beyond the iconic view of Martin Luther King, Jr., as an advocate of racial harmony, to explore his profound commitment to the poor and working class and his call for "nonviolent resistance" to all forms of oppression, including the economic injustice that "takes necessities from the masses to give luxuries to the classes." "Either we go up together or we go down together," King cautioned, a message just as urgent in America today as then. To the Promised Land challenges us to think about what it would mean to truly fulfill King's legacy and move toward his vision of "the Promised Land" in our own time.

One young client who looks more guilty with each new death...

Criminal defense lawyer Michael Gresham learns that a daughter he never knew existed is on death row and desperately needs his help.

Shocking, banned and the subject of obscenity trials, Henry Miller's first novel *Tropic of Cancer* is one of the most scandalous and influential books of the twentieth century *Tropic of Cancer* redefined the novel. Set in Paris in the 1930s, it features a starving American writer who lives a bohemian life among prostitutes, pimps, and artists. Banned in the US and the UK for more than thirty years because it was considered pornographic, *Tropic of Cancer* continued to be distributed in France and smuggled into other countries. When it was first published in the US in 1961, it led to more than 60 obscenity trials until a historic ruling by the Supreme Court defined it as a work of literature. Long hailed as a truly liberating book, daring and uncompromising, *Tropic of Cancer* is a cornerstone of modern literature that asks us to reconsider everything we know about art, freedom, and morality. 'At last an unprintable book that is fit to read' Ezra Pound 'A momentous event in the history of modern writing' Samuel Beckett 'The book that forever changed the way American literature would be written' Erica Jong Henry Miller (1891-1980) is one of the most important American writers of the 20th century. His best-known novels include *Tropic of Cancer* (1934), *Tropic of Capricorn* (1939), and the *Rosy Crucifixion* trilogy (*Sexus*, 1949, *Plexus*, 1953, and *Nexus*, 1959), all published in France and banned in the US and the UK until 1964. He is widely recognised as an irreverent, risk-taking writer who redefined the novel and made the link between the European avant-garde and the American Beat generation.

In 1948 most white people in the North had no idea how unjust and unequal daily life was for the 10 million African Americans living in the South. But that suddenly changed after Ray Sprigle, a famous white journalist from Pittsburgh, went undercover and lived as a black man in the Jim Crow South. Escorted through the South's parallel black society by John Wesley Dobbs, a historic black civil rights pioneer from Atlanta, Sprigle met with sharecroppers, local black leaders, and families of lynching victims. He visited ramshackle black schools and slept at the homes of prosperous black farmers and doctors. The Pittsburgh Post-Gazette reporter's series was syndicated coast to coast in white newspapers and carried into the South only by the Pittsburgh Courier, the country's leading black paper. His vivid descriptions and undisguised outrage at "the iniquitous Jim Crow system" shocked the North, enraged the South, and ignited the first national debate in the media about ending America's system of apartheid. Six years before *Brown v. Board of Education*, seven years before the murder of Emmett Till, and thirteen years before John Howard Griffin's similar experiment became the bestseller *Black Like Me*, Sprigle's intrepid journalism blasted into the American consciousness the grim reality of black lives in the South. Author Bill Steigerwald elevates Sprigle's groundbreaking exposé to its rightful place among the seminal events of the early Civil Rights movement.

The decorated Iraq veteran has faced the worst humanity has to offer; her courtroom battles seem almost tame in comparison. That is until a case lands on her desk that isn't like the others. Photos are circulating online of a young woman who has been abused at a local frat party. Christine Susmann is asked to take on the case.

‘I would have been the first miscarriage of justice... There was this spate of cases: the Birmingham Six, Guildford Four and Cardiff Three. Each one was another nail in my coffin’: Tony Stock, 2008. The story of Tony Stock is astonishing: deeply disturbing it sent out ripples of disquiet when he was sentenced to ten years for robbery at Leeds Assizes in 1970. Over the next 40 years the case went to the Court of Appeal four times and has the distinction of being the first to have been referred to that court twice by the Criminal Cases Review Commission. Tony Stock died in 2012 still fighting to clear his name: spending from his meagre savings to hire private investigators and hoping beyond hope to see justice. Reviews ‘The story of Tony Stock should be mandatory reading for everyone, not merely those involved with the laws. It concerns the quality of our criminal justice system and its serious reluctance and unwillingness to root out injustice’: Michael Mansfield QC. ‘One of the most outrageous miscarriages of justice of modern times’: Barry Sheerman, Labour MP for Huddersfield. In the Press ‘If anyone seriously believes the Court of Appeal has reformed itself since the dark days of the Birmingham Six and Bridgewater Four, they should study the unreported and amazing case of Tony Stock’: Private Eye. ‘I would have thought that the injustice done to Tony (Stock) was fairly self-evident and yet his conviction still stands. I find this very difficult to accept’: Ralph Barrington, investigations adviser at the Criminal Cases Review Commission. ‘The fight for justice that will not die’: Yorkshire Post.

What are our obligations to others as people in a free society? Should government tax the rich to help the poor? Is the free market fair? Is it sometimes wrong to tell the truth? Is killing sometimes morally required? Is it possible, or desirable, to legislate morality? Do individual rights and the common good conflict? Michael J. Sandel's "Justice" course is one of the most popular and influential at Harvard. Up to a thousand students pack the campus theater to hear Sandel relate the big questions of political philosophy to the most vexing issues of the day, and this fall, public television will air a series based on the course. Justice offers readers the same exhilarating journey that captivates Harvard students. This book is a searching, lyrical exploration of the meaning of justice, one that invites readers of all political persuasions to consider familiar controversies in fresh and illuminating ways. Affirmative action, same-sex marriage, physician-assisted suicide, abortion, national service, patriotism and dissent, the moral limits of markets—Sandel dramatizes the challenge of thinking through these conflicts, and shows how a surer grasp of philosophy can help us make sense of politics, morality, and our own convictions as well. Justice is lively, thought-provoking, and wise—an essential new addition to the small shelf of books that speak convincingly to the hard questions of our civic life.

The baby started to come out. Head first, everything OK. But then I saw that there were no arms. And then no legs. The little girl had only a torso and a head. Lyn Rowe was born in Melbourne in 1962, seven months after her mother Wendy was given a new wonder drug for morning sickness called thalidomide. For fifty years the Rowe family cared for Lyn. Decades of exhausting, round-the-clock work. But then in 2011 Lyn Rowe launched a legal claim against the thalidomide companies. Against the odds, she won a multi-million-dollar settlement. Former journalist Michael Magazanik is one of the lawyers who ran Lyn’s case. In Silent Shock he exposes a fifty-year cover up concerning history’s most notorious drug, and details not only the damning case against manufacturers Grünenthal—whose enthusiastic promotion of their lucrative drug in the face of mounting evidence beggars belief—but also the moving story of the Rowe family. Spanning Australia, the United States, the United Kingdom, Japan, Canada, Sweden and, of course, Germany, Silent Shock is an epic account of corporate wrongdoing against a backdrop of heroic personal struggle and sacrifice. Michael Magazanik has worked as a journalist for the Age, the Australian and ABC-TV, and is now a lawyer with Slater & Gordon. He lives in Melbourne with his partner and three children. ‘Magazanik exposes myths and concealments on a grand scale... A compelling read. Highly recommended.’ BookMooch ‘Magazanik—a lawyer on the Rowes’ legal team and a former journalist—has woven an extraordinary story...Magazanik has moulded [the Rowes’] story into a modern Australian myth, the battlers who took on the pharmaceuticals and won.’ Age/Sydney Morning Herald ‘A harrowing read of the damage wrought by this infamous drug.’ WA Today ‘A frightening account of secrets in the pharmaceutical industry and the inspiring story of a family and their legal team that just wouldn’t give up.’ Law Society Journal ‘Silent Shock is an ambitious, important book...Magazanik does an excellent

The Mental Case is a novel about law firm money and a law firm death. And about a missing child and a parent's frantic search. Join Thaddeus Murfee, back in Chicago and around the world, in his strangest case yet—a man whose plastic character changes, comes and goes, like the proverbial will-o-the-wisp. Ansel Largent has been a founder and managing partner of a large Chicago law firm for two decades. He is respected. Ferocious in the courtroom but a winner with the jury. Happy at home with wife Libby, a stroke victim. Happy at the office with Melinda, a married woman with a special interest in him. Ansel has fathered two sons and loves them both dearly. Then Ansel's law firm is horrified by two shocking crimes: the trust account has been embezzled. \$2 hundred million has vanished. And full-partner Suzanne Fairmont has been found dead in her office. Whether her death is a homicide or suicide is immediately disputed. And an even greater shock: Ansel suspects his son David of the embezzlement and wonders if there might also be a connection to Suzanne's sudden death. Thaddeus meets Ansel inside a Mexico jail where both are lodged for crimes committed at the border. Will Thaddeus agree to defend Ansel? Does it matter that Ansel has a \$50,000 retainer taped to his body? They go to trial. Thaddeus is struck speechless at the outcome of his trickiest murder trial yet. He is left with no sense of what comes next and where his client might expect to spend the rest of his life—and with whom. The conclusion is shocking. A Times Literary Supplement's Book of the Year 2020 A New Statesman's Best Book of 2020 A Bloomberg's Best Book of 2020 A Guardian Best Book About Ideas of 2020 The world-renowned philosopher and author of the bestselling Justice explores the central question of our time: What has become of the common good? These are dangerous times for democracy. We live in an age of winners and losers, where the odds are stacked in favor of the already fortunate. Stalled social mobility and entrenched inequality give the lie to the American credo that "you can make it if you try". The consequence is a brew of anger and frustration that has fueled populist protest and extreme polarization, and led to deep distrust of both government and our fellow citizens--leaving us morally unprepared to face the profound challenges of our time. World-renowned philosopher Michael J. Sandel argues that to overcome the crises that are upending our world, we must rethink the attitudes toward success and failure that have accompanied globalization and rising inequality. Sandel shows the hubris a meritocracy generates among the winners and the harsh judgement it imposes on those left behind, and traces the dire consequences across a wide swath of American life. He offers an alternative way of thinking about success--more attentive to the role of luck in human affairs, more conducive to an ethic of humility and solidarity, and more affirming of the dignity of work. The Tyranny of Merit points us toward a hopeful vision of a new politics of the common good.

Should we pay children to read books or to get good grades? Should we allow corporations to pay for the right to pollute the atmosphere? Is it ethical to pay people to test risky new drugs or to donate their organs? What about hiring mercenaries to fight our wars? Auctioning admission to elite universities? Selling citizenship to immigrants willing to pay? In What Money Can't Buy, Michael J. Sandel takes on one of the biggest ethical questions of our time: Is there something wrong with a world in which everything is for sale? If so, how can we prevent market values from reaching into spheres of life where they don't belong? What are the moral limits of markets? In recent decades, market values have crowded out nonmarket norms in almost every aspect of life—medicine, education, government, law, art, sports, even family life and personal relations. Without quite realizing it, Sandel argues, we have drifted from having a market economy to being a market society. Is this where we want to be? In his New York Times bestseller Justice, Sandel showed himself to be a master at illuminating, with clarity and verve, the hard moral questions we confront in our everyday lives. Now, in What Money Can't Buy, he provokes an essential discussion that we, in our market-driven age, need to have: What is the proper role of markets in a democratic society—and how can we protect the moral and civic goods that markets don't honor and that money can't buy?

Looking at a host of ethical dilemmas, including affirmative action, conscription, income distribution, and gay rights, from a variety of angles—morally, legally, politically—the collection engages with the core concerns of
