From one of the world's leading neuroscientists: a succinct, illuminating, wholly engaging investigation of how biology, neuroscience, psychology, and artificial intelligence have given us the tools to unlock the mysteries of human consciousness In recent decades, many philosophers and cognitive scientists have declared the problem of consciousness unsolvable, but Antonio Damasio is convinced that recent findings across multiple scientific disciplines have given us a way to understand consciousness and its significance for human life. In the forty-eight brief chapters of *Feeling & Knowing*, and in writing that remains faithful to our intuitive sense of what feeling and experiencing are about, Damasio helps us understand why being conscious is not the same as sensing, why nervous systems are essential for the development of feelings, and why feeling opens the way to consciousness writ large. He combines the latest discoveries in various sciences with philosophy and discusses his original research, which has transformed our understanding of the brain and human behavior. Here is an indispensable guide to understanding how we experience the world within and around us and find our place in the universe.

Brain Quest just keeps getting smarter! Brain Quest America has been thoroughly updated with fresh and appealing designs for the cards and revised content—that's hundreds of brand-new questions. Drawn from first-through sixth-grade curricula, the material aligns with state and national standards and is vetted by an award-winning teacher. Delving into notable events and famous people, literature, laws, inventions, and more, Brain Quest America presents 850 questions and answers all about the U.S.A. Test your knowledge about a kite-flying scientist from Philadelphia (Ben Franklin) and

the “Land of 10,000 Lakes” (Minnesota). And which came first, the Post-it or the Band-Aid? Brain Quest proves it’s not just fun to be smart—it’s smart to be smart.

It’s the revolutionary world history study guide just for middle school students from the brains behind Brain Quest. *Everything You Need to Ace World History . . .* kicks off with the Paleolithic Era and transports the reader to ancient civilizations—from Africa and beyond; the middle ages across the world; the Renaissance; the age of exploration and colonialism, revolutions, and the modern world and the wars and movements that shaped it. The BIG FAT NOTEBOOK™ series is built on a simple and irresistible conceit—borrowing the notes from the smartest kid in class. There are five books in all, and each is the only one book you need for each main subject taught in middle school: Math, Science, American History, English, and World History. Inside the reader will find every subject’s key concepts, easily digested and summarized: Critical ideas highlighted in marker colors. Definitions explained. Doodles that illuminate tricky concepts. Mnemonics for a memorable shortcut. And quizzes to recap it all. The BIG FAT NOTEBOOKS meet Common Core State Standards, Next Generation Science Standards, and state history standards, and are vetted by National and State Teacher of the Year Award–winning teachers. They make learning fun, and are the perfect next step for every kid who grew up on Brain Quest.

Now first- and second-graders can really sharpen their skills. Announcing Brain Quest Math and Brain Quest Reading, a natural extension of Brain Quest into single-subject tutorials. Using the same curriculum-based, question-and-answer format that has made Brain Quest America's #1 educational bestseller with over 16 million copies in print, Math and Reading concentrate on the two subjects that are of paramount importance for parents, teachers, and especially the kids. Math is as focused as flash cards, but with far more range, interactivity, and educational value. Each grade comprises two decks. 1st Grade has five questions to a card, covering Numeration, or the basics of numbers; Bits & Pieces, including shapes and equivalents; Computation-addition and subtraction; Measurements; and Problem-Solving. 2nd Grade, with seven questions to a card, adds two new categories to the original five-Super Computation, which has more complicated operations, and Fun with Numbers. Reading takes a thorough approach to working on the fundamentals of reading and language arts. First comes an original one-page story illustrated in full-color, with 56 stories per grade. Following the story card is a comprehension card, quizzing the reader about the story, its characters, and content. Following that card is a second question card-five questions for 1st Grade, seven for 2nd Grade-on Grammar, Word Choice, Phonics, Vocabulary, Extensions, and Mixed Bag. A strong foundation in math, a strong foundation in reading—that's what elementary education is all about. Making it fun to learn is what Brain Quest is all about—that, and reinforcing the idea that It's O.K. to Be Smart!
