Over the span of fifty five years, beginning at age eight, I have investigated many religions. I have read Islam's Qur'an cover-to-cover, as well as the Catholic apocrypha, in which the book of Susanna touches my heart dearly. I have read the Book of Mormon cover-to-cover and it, too, touched my heart. I have been lured by the grace of Hindus and Buddhists to ponder their beliefs. Yet, I do not consider these to be a part of the preserved Word of God. Only the Biblical teachings of Jesus Christ explain to me where my spirit came from. It tells me what I did to fall from God's grace, why I am on this planet, and why I need pardon greater than I can obtain myself. Jesus Christ has provided the Way and no other book explains it as does the Holy Bible. The Bible gives me healthy hope to carry on with gusto. As of the year 2010, I have read the King James Holy Bible cover-to-cover more than twenty five times. This ongoing reading, of the preserved Word of God, is the only credential I claim and stand firmly upon. Biblical faith is not blind, but anchored securely in observable science. I am a nuts-and-bolts, up to my elbows in grease, kind of gear head. I want to know what makes it tick! The "Authorized" Holy Bible is the repair manual for life, for dummies! It explains the mysteries of God's kingdom in detail to those who read it all very carefully. I have not arrived. My "sojourn" in this "far country" called earth is still in motion. However, we are at the threshold of major global events, as never before seen by man. These events are all foretold in God's preserved written Word. Hence, my reading of The Holy Bible is my only credential, and I have a passion for sharing what I have found! May you be blessed "eternally" as you journey with me the corridors of life that are not limited by time and space. May the Lord add His blessing to the reading of His entire Word. Amen. Rog

Adding a larger displacement above the still-available 396 (402) offered buyers the option to order the most powerful production car of that era. The 1970-1972 Chevelles remain the most collectible of the model to this day. Author and historian Dale McIntosh pairs with restoration expert Rick Nelson to provide this bible of authenticity on the legendary 1970, 1971, and 1972 Chevelle models. Everything about restoring your Chevelle back to bone-stock is covered meticulously, including step-by-step instructions for chassis and interior restoration. Understanding date variances on parts applicable to the build date of your Chevelle is vital to a factory-correct restoration, and including them in this book provides a depth of coverage on these cars that is unequalled. Restoring a 1970-1972 Chevelle back to concours correct takes a certain amount of expertise. Thankfully, Rick and Dale have done a lot of the heavy lifting on the research side. With this authenticity guide, you can be confident that you have all the correct components and options accurately and expertly represented for your stock restoration.
