of first hand photo material and thrilling stories makes it the fascinating document of an insider about some of the biggest celebrities of the 70s. This book is packed with scores of rare pictures, because Bubi was one of the few photographers ever allowed into the inside world of the phenomenon that was ABBA. He spent lots of time with the band, travelled with them, went for visits at their houses, met their families. He also took pictures of live concerts, backstage, and at elaborate studio settings. Bubi's ABBA photography was commissioned by BRAVO, Europe's most popular teen magazine. However, only a fraction of Bubi's photographs was actually published in BRAVO or other magazines. While some of the pictures used for this book have become classics, very many of them have not been available to the public before - a feast for the eyes of every die-hard ABBA lover.

lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.
