A book of transformation and guidance that cheers the spirit and awakens a sense of personal responsibility. We use words every day to communicate, to express our feelings and thoughts, but we often forget how powerful they can be and how important it is to choose them with care if we wish to attract love, happiness and success. With honesty and warmth, Andrea Gardner shares her own ups and downs on her journey to changing her words and her world, and provides the inspiration and tools that you need to find your own true purpose and transform your life to match your dreams. From attracting prosperity and improving your relationships, to finding your true purpose and serving the world, Andrea touches on a wide variety of themes, and helps you laugh at your failings with love, and then pick yourself up and carry on to the wonderful life that you truly deserve. This is a light and entertaining read, but it contains a very powerful message that may very well change your world for good.

Englishman David Hobbs--'Hobbo' to his friends and fans--is one of motor racing's most remarkable all-rounders. In a 31-year driving career he raced in almost every imaginable category: endurance sports racers, touring cars, Formula 1, Formula 5000, Indycars, IMSA, Trans-Am, Can-Am and even NASCAR--he has done the lot. And on top of that he has been a television commentator in America for nearly 40 years, bringing wit and wisdom to the screen, latterly as part of NBC's Formula 1 team. Now, at last, this very popular racer has put down all his experiences in this highly readable memoir that will be welcomed by racing enthusiasts on both sides of the Atlantic.

The American Psychiatric Publishing Textbook of Geriatric Psychiatry is an indispensable resource for psychiatric clinicians and trainees charged with assessing, diagnosing, and treating mental disorders in our nation's burgeoning population of older adults, as well as the nurses and other professionals who provide critically important care day to day. Building on the prodigious strengths of previous editions, this revision is the most current, comprehensive, and systematic textbook of geriatric psychiatry available today, and the only one that is DSM-5® concordant. The text's organization is user-friendly and practical, with sections addressing the basic science of geriatric psychiatry, the diagnostic interview in late life, psychiatric disorders in late life, treatment, and special topics. In addition, an array of useful features are included: The new DSM-5 structure and classifications have been integrated into every chapter, ensuring that readers understand how the changes impact diagnosis and patient care. Not only do the authors provide up-to-date information on psychiatric disorders, they also contextualize that information for the geriatric population, presenting the latest thinking on the phenomenology, diagnosis, and assessment of late-life mental disorders such as dementia and other neurocognitive disorders, mood disorders, anxiety disorders, and circadian rhythm disorders. All treatment sections have been thoroughly updated to incorporate the most recent knowledge and research findings on psychotherapeutic, psychopharmacological, and other somatic treatments. The book offers an impressive set of graphical and illustrative features to help the reader comprehend and retain the material, including outlines, bulleted key points, and tables, as well as lists of essential readings to deepen understanding of complex topics. Widely recognized as the standard in its field, The American Psychiatric Publishing Textbook of Geriatric Psychiatry serves a critical need for clinicians challenged to meet the mental health needs of an aging population. Fundamental Constructs in Mathematics Education is a unique sourcebook crafted from classic texts, research papers and books in mathematics education. Linked together by the editors' narrative, the book provides a fascinating examination of, and insight

into, key constructs in mathematics education and how they link together. The choice of constructs is based on (some of) the many constructs which have proved fruitful in research and which have informed choices made by teachers. The book is divided into two parts: learning and teaching. The first part includes views about how people learn - from Plato to Dewey, as well as constructivism, activity theory and French didactiques. The second part includes extracts concerned with initiating, sustaining and bringing to a conclusion learners' work on mathematical tasks. Fundamental Constructs in Mathematics Education provides access to a wide range of constructs in mathematics education and orients the reader towards important original sources.

This official book captures the amazing history of Larry Perkins' famous team via the histories of its individual race cars. The book follows on from the sold-out release by the same production house in 2017 documenting the history of every Holden Racing Team race car and the follow up sell-out in 2020 covering the history of all of Dick Johnson Racing's cars. Perkins Engineering built more than 50 Commodore race cars for both its own racing program and privateer customers as well as more than 200 engines for touring cars, AUSCAR, Formula Holden, road car and boat use. All of these Perkins-built cars will be covered in full including never-before-published insights and photographs to feature and Perkins Engineering's official records used to help compile the ultimate history book. The exciting new release will start with Perkins' first ENZED Commodore Group A VK built in 1986, include the histories of the three Bathurst-winning Castrol Commodores that conquered the Mountain in the 1990s and end with the last Jack Daniel's Commodore VE. It features Commodore models including VK, VL Group A SS, VL Group A SV, VN, VP, VR, VS, VT, VX, VY, VZ and VE and includes all of the iconic Perkins Castrol and Jack Daniel's race cars as well as the wide range of privateer cars built by Perkins Engineering. Each car's racing history is presented in a stunning layout along with a special focus placed on each car's performances in 'The Great Race' at Bathurst. This hardcover book will be produced in an exclusive limited-edition print run and each copy will come individually numbered and hand-signed by Larry Perkins, making it not only an official historic resource but a truly special collectable item. Australian-made and printed in Australia via green printing methods, this book is a must-have for the collection of any Larry Perkins, Perkins Engineering, Holden, Bathurst, motorsport, motoring or automotive enthusiast. Scheduled for release in October/November 2021, this book can't be missed.
