In 2009, after a public appeal, the British Library purchased a manuscript 'Booke', which Captain Narbrough bought in 1666 and into which he subsequently entered his journals of his voyages and correspondence relating to them. The 'Booke' contains his own fair copy of the journal of his voyage through the Strait of Magellan and north to Valdivia in the Sweepstakes, 1669-1671. This is published here for the first time, together with an incomplete and somewhat different copy of the journal, held in the Bodleian Library, which was made for him by a clerk after he returned to England, and which was partially published in 1694. Both versions of the journal together with previously unpublished records made by members of his company, as well as reproductions of the charts which Narbrough relied on and those he produced, are printed here. Narbrough's mission was to carry out a passenger who referred to himself as Don Carlos Enriques and who claimed to have expert knowledge of Peru and Chile, and contacts with disaffected colonists and indigenous peoples. Don Carlos's written proposals to King Charles II and his ministers, only recently discovered, are here translated from

Spanish, and give a clear sense of the character, if not the real identity, of an adventurer, who gave the authorities in England, Chile and Peru totally different and changing stories about his status and the purpose of the voyage. Narbrough's conduct of the voyage has been criticized by later authors who have focussed on his inability recover four of his ship's company from detention in Valdivia and the lack of tangible results, in the form of trade or contacts with indigenous groups. The more complete story provided here shows that Narbrough carried out his ambiguous orders to the letter. His chart of the Strait of Magellan remained the principal chart of the area for the next century. King Charles II and James, Duke of York, both recognized his abilities. He was rapidly re-employed in naval service, subsequently knighted, and rose to become a Commissioner of the Navy and Commander in Chief in the Mediterranean. "Remember the Maine!" The war cry spread throughout the United States after the American battleship was blown up in Havana harbor on February 15, 1898. Americans, already sympathetic with Cuba's struggle for independence from Spain, demanded action. Brief and decisive, not too costly, the Spanish-American War made the United States a world power. David F. Trask's War with Spain in 1898 is a cogent political and military history of that "splendid little war." It describes the failure of diplomacy; the state of preparedness of both sides; the battles, including those of Theodore Roosevelt and his Rough Riders; the enlargement of conflict to rout the Spanish from Puerto Rico and the Philippines; and the misconceptions surrounding the war.

In the late twentieth century, a tidal wave of calls for reform and inclusion of special needs students swept over public school special education. The current debates over implementing these themes today are addressed by nineteen scholars in this volume. Organized into three cohesive sections, it begins with the issues of educational reform and the emerging discourses of disability and integration in the inclusion movement. Respective chapters appraise specific arguments for inclusion and the federal legislation and litigation surrounding and supporting special education.

Hailed as a child prodigy and later acclaimed as England's finest extempore organist, Samuel Wesley - son of Charles Wesley and nephew of John Wesley, the founders of Methodism - is best known today for his musical compositions and for his promotion of the music of J. S. Bach. At the heart of this source book is a calendar of Samuel Wesley's correspondence. The editors date and summarise the content of over 1100 surviving letters and other documents, most of which have not previously been published. The book accordingly reveals considerable new information about Wesley and his complex personal affairs, including his incarceration for debt and his confinement in a lunatic asylum for a year. Many details are provided about London musical life in the era from Boyce to Mendelssohn that prior scholars have not taken into account. The book also presents a chronology of Wesley's life, a descriptive list of his nearly 550 musical and literary works, a discography, an iconography and a bibliography. It therefore is the most comprehensive available reference source for Wesley's life, times and music. Shows that a religious understanding of illness and health persisted well into post-Enlightenment early America The COVID-19 pandemic has demonstrated the power of narrative during times of sickness and disease. As Americans strive to find meaning amid upheaval and loss, some consider the nature of God's will. Early American Protestants experienced similar struggles as they attempted to interpret the diseases of their time. In this groundbreaking work, Philippa Koch explores the doctrine of providence—a belief in a divine plan for the world—and its manifestations in eighteenth-century America, from its origins as a consoling response to sickness to how it informed the practices of Protestant activity in the Atlantic world. Drawing on pastoral manuals, manuscript memoirs, journals, and letters, as well as medical treatises, epidemic narratives, and midwifery manuals, Koch shows how Protestant teachings around providence shaped the lives of believers even as the Enlightenment seemed to portend a more secular approach to the world and the human body. Their commitment to providence prompted, in fact, early Americans' active engagement with the medical developments of their time, encouraging them to see modern science and medicine as divinely bestowed missionary tools for helping others. Indeed, the book shows that the ways in which the colonial world thought about questions of God's will in sickness and health help to illuminate the continuing power of Protestant ideas and practices in American society today.

The three volumes that will encompass North American Exploration appraise the full scope of the exploration of the North American continent and its oceanic margins from prior to the arrival of Columbus until the end of the nineteenth century. More than an assessment of historical events, these volumes portray the process of exploration. Without forgetting the romance of exploration, the authors recognize that exploration is a great deal more than the adventures themselves. All explorers are conditioned by the time, place, and circumstances of their efforts; these determine objectives, the behavior of explorers, and the consequences of their discoveries. In this first volume we follow the expansion of knowledge from the world of the pre-Columbian explorers through the end of the sixteenth century, with each topic addressed by an expert, and all fitting into a coherent whole.

The volume is enhanced by a discussion of the geographical knowledge and beliefs of the native peoples of the North American continent, and how this knowledge influenced the efforts and understanding of the Europeans. John Logan Allen is a professor of geography at the University of Connecticut. He is the author of *Passage through the Garden: Lewis and Clark and the Image of the American Northwest*.

ON COURSE: STRATEGIES FOR CREATING SUCCESS IN COLLEGE AND IN LIFE, STUDY SKILLS PLUS EDITION was created for educators who would like to promote student growth and self-awareness, while providing more extensive instruction in study skills. This book offers valuable information about the latest developments in the field of foreign language (FL) teaching and learning. It provides FL practitioners and academics working at all levels of education, generalist teachers working in multicultural environments, and teacher educators with some practical ideas that can help them further develop their teaching skills, optimize their students' learning and revisit their practices. Specifically, it offers insights into a range of pedagogical practices, based on research or long experience, related to various topics pertaining to the general theme of this edited volume. Such topics include vocabulary teaching in English for Specific Academic Purposes courses, the cultivation of intercultural awareness in multicultural schools, the use of literature in the FL classroom, the enhancement of students' reading literacy, the importance of motivation and peripheral difficulties in conjunction with dyslexia, and the use of reflective practice for teacher development.

The MacDowalls traces the glories, tragedies, and amazing accomplishments of MacDowall kindred from their beginnings in Scotland and Ireland hundreds of years ago to their illustrious present in such countries as the United States, Canada, Australia, the Netherlands, and Russia. The cast of characters ranges from kings and barons to artists and generals, farmers, homemakers, and teachers. Their stories unfold as a history in progress, as each has made a unique and significant impact on the world.

Several war crimes trials are well-known to scholars, but others have received far less attention. This book assesses a number of these little-studied trials to recognise institutional innovations, clarify doctrinal debates, and identify their

general relevance to the development of international criminal law.

“On point” is a military term used to designate the infantryman who will lead patrol, the riskiest of all positions. Writing is risky business, too. For the veteran suffering from post-traumatic stress, writing can trigger painful and disturbing flashbacks. But writing is also risky for the ego. It's one thing to write a military story, especially a story based on authentic experiences; it is quite another to muster the courage to share that story with others for critique and feedback. In *On Point*, Tracy Crow, an award-winning military journalist, former Marine Corps officer, college writing professor, military novelist, memoirist, and editor, presents a roadmap for writing an authentic military story. Drawing from her personal experiences and those of other veteran writers, and from the insights of noteworthy writing and teaching professionals, *On Point* is the guide Crow wished she'd had when she first began writing about her military experience. While writing guidebooks abound, no book specifically addresses the unique challenges and rewards facing soldiers who risk reliving their personal traumas to craft a military story drawn with courage and candor. *On Point* is a guide for any writer who wishes to tell an authentic military story, developed especially for veterans and their families for whom writing may serve as a form of healing.

A personal chronicle/textbook which aims to help students better understand their own choices and potential. It contains ten chapters that explore goal-setting, time management, relationships and other life skills issues that affect student success. Ancillary package available on adoption.
