Using a systems approach, this book examines the major schools of philosophy of education; considers the relationship of education to major ideologies including Nationalism, Liberalism, Conservatism, and Marxism; and analyzes the impact of philosophy and ideology on educational theory and practice through the theories of Essentialism, Perennialism, Social Reconstruction, and Critical Theory. Previously published as Philosophical and Ideological Perspectives on Education, and as New Perspectives on Philosophy and Education, this new version follows the content and organizational framework of these earlier editions. For each chapter it includes definitions of terms; historical contributors and antecedents; a general discussion of the particular philosophy, ideology, or theory; and relationships and application to education, especially to schools, curriculum instruction, and to teachers and students.

This casebook complements and accompanies Philip Kotler and Gary Armstrong's Principles of Marketing by providing 37 cases on Asian companies operating in Asia and/or outside Asia, as well as about non-Asian companies operating within Asia.

This user-friendly textbook offers students an overview of each aspect of the marketing process, explored uniquely from the value perspective. Delivering value to customers is an integral part of contemporary marketing. For a firm to deliver value, it must consider its total market offering – including the reputation of the organization, staff representation, product benefits, and technological characteristics – and benchmark this against competitors' market offerings and prices. Principles of Marketing takes this thoroughly into account and ensures that students develop a strong understanding of these essential values. The book also looks in detail at the impact of social media upon marketing practices and customer relationships, and the dramatic impact that new technologies have had on the marketing environment. Written by a team of experienced instructors, Principles of Marketing is an ideal companion for all undergraduate students taking an introductory course in marketing.

How to compete in the right space for greater profitability and growth The Internet, mobile technology, the ubiquity of information and the availability of big data have dramatically increased the speed and impact of success and failure. Companies today know that they must be competitive, but precisely where, and more importantly how, to compete is not always easy to identify—until now. Compete Smarter, Not Harder explains how to prioritize market opportunities so that a company's strengths in one area can be leveraged across multiple markets. Using cutting-edge academic research and extensive industry

practice, author William Putsis outlines the strategic decisions needed to determine which space provides the best margins, overall profitability, and growth potential. Details a step-by-step process for strategic prioritization, from strategic market selection to the tactics of execution, providing competitive advantage across markets. Written by Doctor William Putsis, a professor of marketing, economics, and business strategy at the University of North Carolina at Chapel Hill, who has consulted and led executive development efforts with leading companies throughout the world. Prioritize with conviction. Make absolutely sure that all of your hard work goes toward the right space.

An Ingredient Brand is exactly what the name implies: an ingredient or component of a product that has its own brand identity. This is the first comprehensive book that explains how Ingredient Branding works and how brand managers can successfully improve the performance of component marketing. The authors have examined more than one hundred examples, analyzed four industries and developed nine detailed case studies to demonstrate the viability of this marketing innovation. The new concepts and principles can easily be applied by professionals. In the light of the success stories of Intel, GoreTex, Dolby, TetraPak, Shimano, and Teflon it can be expected that component suppliers will increasingly use Ingredient Branding strategies in the future.

What actually is marketing? Many people think of marketing as only sales and advertising because every day we are bombarded with TV commercials, flyers, catalogues, sales calls, and commercial e-mail. However, selling and advertising are only one element of marketing. Today, marketing must be understood not in the old sense of making a sale but in a contemporary and holistic sense of satisfying customer needs. In this book the authors develop the Quintessential Marketing Arena by following the logic of the three major steps of the marketing process. Along this process they present the fourteen most important marketing instruments that occur during this process. Having read this book: You will have a basic understanding of marketing and the process of marketing management You will know the most important marketing instruments and how they interact You can develop your own marketing plan based on the Quintessential Marketing Arena
