Brave New Digital Classroom examines the most effective ways to utilize technology in language learning. The author deftly interweaves the latest results of pedagogical research with descriptions of the most successful computer-assisted language learning (CALL) projects to show how to implement technology in the foreign-language curriculum to assist the second language acquisition process. This fully updated second edition includes new chapters on the latest electronic resources, including gaming and social media, and discusses the realities and potential of distance learning for second language acquisition. The author examines the web, CALL applications, and computer-mediated communication (CMC), and suggests how the new technologically assisted curriculum will work for the foreign-language curriculum. Rather than advocating new technologies as a replacement for activities that can be done equally well with traditional processes, the author envisions a radical change as teachers rethink their strategies and develop their competence in the effective use of technology in language teaching and learning. Directed at all language teachers, from the elementary school to postsecondary levels, the book is ideal for graduate-level courses on second language pedagogy. It also serves as an invaluable reference for experienced researchers, CALL developers, department chairs, and administrators.

from our world in which the boundary between reality and imagination becomes blurred. From fleeting everyday scenes to mysterious happenings and historical events, they reveal a complex and multi-layered reality. Thomas Demand, Philip-Lorca diCorcia, Andreas Gursky and Jeff Wall use the proximity to reality and the momentary nature of photography in order to create their idiosyncratic viewpoints of reality. What is real? They play with the viewers' perceptions, irritate and invite them to an individual interpretation of what is shown. This exclusive volume presents the works of the stars of the contemporary international photography scene magnificently and in clearly narrated texts.

A panoramic and epic novel in the grand romantic style, *Push Not the River* is the rich story of Poland in the late 1700s--a time of heartache and turmoil as the country's once peaceful people are being torn apart by neighboring countries and divided loyalties. It is then, at the young and vulnerable age of seventeen, when Lady Anna Maria Berezowska loses both of her parents and must leave the only home she has ever known. With Empress Catherine's Russian armies streaming in to take their spoils, Anna is quickly thrust into a world of love and hate, loyalty and deceit, patriotism and treason, life and death. Even kind Aunt Stella, Anna's new guardian who soon comes to personify Poland's courage and spirit, can't protect Anna from the uncertain future of the country. Anna, a child no longer, turns to love and comfort in the form of Jan, a brave patriot and architect of democracy, unaware that her beautiful and enigmatic cousin Zofia has already set her sights on the handsome young fighter. Thus Anna walks unwittingly into Zofia's jealous wrath and darkly sinister intentions. Forced to survive several tragic events, many of them orchestrated by the crafty Zofia, a strengthened Anna begins to learn to place herself in the way of destiny--for love and for country. Heeding the proud spirit of her late father, Anna becomes a major player in the fight against the countries who come to partition her beloved Poland. *Push Not the River* is based on the true eighteenth century diary of Anna Maria Berezowska, a Polish

countess who lived through the rise and fall of the historic Third of May Constitution. Vivid, romantic, and thrillingly paced, it paints the emotional and unforgettable story of the metamorphosis of a nation--and of a proud and resilient young woman.

Can secularism offer us moral, aesthetic, and spiritual satisfaction? Or does the secular view simply affirm a dog-eat-dog universe? At a time when the issues of religion, evolution, atheism, fundamentalism, Darwin, and science fill headlines and invoke controversy, *The Joy of Secularism* provides a balanced and thoughtful approach for understanding an enlightened, sympathetic, and relevant secularism for our lives today. Bringing together distinguished historians, philosophers, scientists, and writers, this book shows that secularism is not a mere denial of religion. Rather, this positive and necessary condition presents a vision of a natural and difficult world--without miracles or supernatural interventions--that is far richer and more satisfying than the religious one beyond. From various perspectives--philosophy, evolutionary biology, primate study, Darwinian thinking, poetry, and even bird-watching--the essays in this collection examine the wealth of possibilities that secularism offers for achieving a condition of fullness. Factoring in historical contexts, and ethical and emotional challenges, the contributors make an honest and heartfelt yet rigorous case for the secular view by focusing attention on aspects of ordinary life normally associated with religion, such as the desire for meaning, justice, spirituality, and wonder. Demonstrating that a world of secular enchantment is a place worth living in, *The Joy of Secularism* takes a new and liberating look at a valuable and complex subject. The contributors are William Connolly, Paolo Costa, Frans de Waal, Philip Kitcher, George Levine, Adam Phillips, Robert Richards, Bruce Robbins, Rebecca Stott, Charles Taylor, and David Sloan Wilson.

What does it mean to be British? It is now recognized that being British is not innate, static or permanent, but that national identities within Britain are constantly constructed and reconstructed. Britishness since 1870 examines this definition and redefinition of the British national identity since the 1870s. Paul Ward argues that British national identity is a resilient force, and looks at how Britishness has adapted to changing circumstances. Taking a thematic approach, Britishness since 1870 examines the forces that have contributed to a sense of Britishness, and considers how Britishness has been mediated by other identities such as class, gender, region, ethnicity and the sense of belonging to England, Scotland, Wales and Ireland.
