Silicon Valley actuary Ann Smith is an expert at calculating probabilities, but lately the odds haven't been in her favor. Two years ago her fiancé died a week before their planned Christmas wedding, leaving Ann heartbroken and alone. When a friend suggests heading up to Lake Tahoe for a long Christmas weekend of skiing, wine, and relaxation, Ann thinks it might be just the thing to help get her life back on track. But Ann's plans go awry when her friend cancels at the last minute, and Ann ends up driving to Tahoe with Chase Deckert, a sexy snowboarder who pushes all her buttons. Chase Deckert is a man who lives by his own rules. A few years ago his business partner betrayed him by selling out their biomedical research for a quick profit. Chase left science far behind, and now spends his days snowboarding in Tahoe, wanting nothing to do with the dog-eat-dog world of Silicon Valley. Chase has closed his mind and his heart and only believes in one thing: fate. But fate seems to be in a giving mood, because joining him for Christmas is a brave, beautiful woman who shows him the true meaning of the season and helps him rediscover a part of himself he'd long forgotten. Fueled by the mountain scenery, the season, and their unbelievable chemistry, Ann and Chase end up learning more about each other—and themselves—than they ever imagined possible. Can one long, steamy Christmas help them realize they're meant to be together? Or when the holiday is over will they be right back where they started? Told with P. D. James's trademark suspense, insightful characterization, and riveting storytelling, *The Children of Men* is a story of a world with no children and no future. The human race has become infertile, and the last generation to be born is now adult. Civilization itself is crumbling as suicide and despair become commonplace. Oxford historian Theodore Faron, apathetic toward a future without a future, spends most of his time reminiscing. Then he is approached by Julian, a bright, attractive woman who wants him to help get her an audience with his cousin, the powerful Warden of England. She and her band of unlikely revolutionaries may just awaken his desire to live . . . and they may also hold the key to

survival for the human race.

All the students in the class are assigned reading buddies, except for Adelaide. She already has one, a bear! And Adelaide is quite persuasive as she explains to her language arts teacher, Mrs. Fitz-Pea, and the reader, that bears really do make the best reading buddies: they sniff out good books and their claws are just right for turning pages. And the bear looks rather friendly (and studious) in these crayon-bright, contemporary illustrations, making this is must-read picture book for story time!

But can Sar trust her heart fully, much less her own desires?

As his son grows more troubled, Theo hopes to keep him off psychoactive drugs. He learns of an experimental neurofeedback treatment to bolster Robin's emotional control, one that involves training the boy on the recorded patterns of his mother's brain... With its soaring descriptions of the natural world, its tantalizing vision of life beyond, and its account of a father and son's ferocious love, *Bewilderment* marks Richard Powers's most intimate and moving novel. At its heart lies the question: How can we tell our children the truth about this beautiful, imperiled planet?
